

The Results Accelerator™

Group Edition

Rapid professional development in a group setting

The Results Accelerator™ is a unique visual coaching experience that gives you access to profound insights and greater self-awareness that help you move forward fast. You experience yourself from a new point of view and quickly pinpoint the choices that are authentic for you.

It's like a powerful internal 360 that leads to actionable results!

Experience your individual The Results Accelerator™ with the opportunity to reflect, collaborate and share feedback with others in a group setting.

You share only what you want to share, but you benefit from the socialized learning that others can bring to your professional and personal development. The group experience allows you to maintain your privacy and still benefit from the observations and perceptions of others to gain added perspectives and eliminate blind spots.

The “best of both worlds,” the Group Edition also includes a one-on-one follow-up session with the coach to personalize the application of the learning and create results.

What you need to know about The Results Accelerator™ - Group Edition

Who Should Attend?

Leaders and other professionals who know that self-understanding is the key to effectiveness and satisfaction.

Program Overview

One-day Intensive

During this focused one-day group session you will complete the The Results Accelerator™ process guided by the coach.

You will be guided through reflection and collaboration activities that give you the opportunity to learn from others in the room.

Individual Follow-up Application Session

During this one-on-one coaching session, your coach will review your The Results Accelerator™ with you, discuss insights, and help you create action strategies for achieving your present goals and objectives, and overcome your challenges.
